

# Web Developer

Aquila Learning are a rapidly growing Learning Technology company delivering Training Management Software into defence and other high-risk industries. This is an opportunity to get in on the ground floor of a new and exciting company and help shape the technology and culture of our small but talented team.

The right candidate should be able to work closely with the rest of the team whilst also being self-motivated enough to own and deliver small projects. As our team is small there may be the need to carry out duties beyond your typical responsibilities and everyone is expected to “muck-in” when necessary. In return we offer a flexible working environment and believe very much in a give-and-take approach.

<b>Job Position</b>	Web Developer (Full stack)
<b>Employment Type</b>	Full time
<b>Working Location</b>	Offices available in Bloxham Remote working options available but candidates would need to attend the office for onboarding.
